

3R Education

Earth Day every day

"I have a dream...I dream of undoing the damage we've done. I dream of clean water, clean air and clean soil. Will you dream with me?" — Brooke Hampton, children's author

3R Education presents EARTH DAY EVERY DAY, a year-round local initiative to bring environmental awareness to schools and after school programs, churches, summer camps, organizations, and civic groups.

Our objective is to help citizens of all ages gain environmental insight and knowledge, make informed and responsible decisions, and problem solve around local environmental concerns and initiatives. Invite us to your next gathering or event. We also encourage teachers and parents to ask us about our environmental presentations for 2nd through 8th grade classrooms and home school groups in Newaygo County.

Our teachings are age appropriate, and we can customize programming to suit your needs. There is no charge for 3R services. Some of the topics we address include:

- 🌍 **WATER, AIR, AND EARTH POLLUTION:** greenhouse gases including fossil fuel toxins and landfill methane, plastic islands, ocean acidification;
- 🌍 **WASTE MANAGEMENT:** landfills, recycling, hazardous waste treatment;
- 🌍 **ATMOSPHERIC CONDITIONS:** global warming, ozone depletion;
- 🌍 **NATURAL RESOURCES:** overconsumption, waste, deforestation, destruction of ecosystems and species die-off;
- 🌍 **SUSTAINABILITY:** renewable energy, smarter electric grid, reduced waste, fertilizer/pesticide efficiency, lower consumptions;
- 🌍 **LOCAL INITIATIVES:** Recycling and other relevant local environmental information.

3R Education is a 501(c)3 nonprofit organization teaching and advocating on behalf of local and global sustainability.

IT IS THE GREATEST OF ALL MISTAKES TO DO NOTHING BECAUSE YOU CAN ONLY DO LITTLE

DO WHAT YOU CAN
